## CAMP & REMOTE OPERATIONS SECURITY

• Industrial • Energy • Pipeline • Mine • Railway • Forestry • Disaster Response

Wherever you find yourself operating, we can go the distance to support your fixed or mobile operations. From drilling sites to permanent year round camps we can support your team on the ground to provide safe, secure and efficient service.

We can provide services to remote sites anywhere in Alberta, whether it is a year round fixed operation or a winter or moving camp, we can support and secure your operations. We work closely with your head office and onsite management to deliver the highest level security program.

Whether your camp is a 'dry' or 'wet' camp, we can work with you to keep it safe and secure. We design or can integrate into your security program for optimal success. We work closely with your management and communicate in an effective and timely manner to the benefit of all stakeholders.
